

Part Change Notification SEBN Requirements

Katarzyna Urbaniak, Agnieszka Dzikowska

CQM, SEBN PL

March 2022

Content

1. About SEBN
2. Process and content
3. Reason why we need this information in advance
4. SEBN PCN flow chart
5. Documenting PCNs: Mandatory information
6. End of life PCNs (EOL)

About SEBN

Sumitomo Electric Bordnetze is a global supplier of electrical wire harnesses and components employing over 39,000 people at more than 41 sites in 14 countries.

For over 30 years we have been closely collaborating with our customers to develop complex wire harness systems up to series production and accompany demanding vehicle projects all the way from initial conception through production to the sequence-specific delivery of our products to the customer.

Process and content

- Send information about PCN, only when this change concerns SEBN
- BMG (if the change requires it)
- SEBN part number / OEM part number which is concerned
- Supplier part number which is concerned
- Reason of change
- Initiator of change
- Detailed description of the change (if available drawing or project plan)
- Availability of samples
- First delivery schedule and marking (e.g. next index, marked packaging)

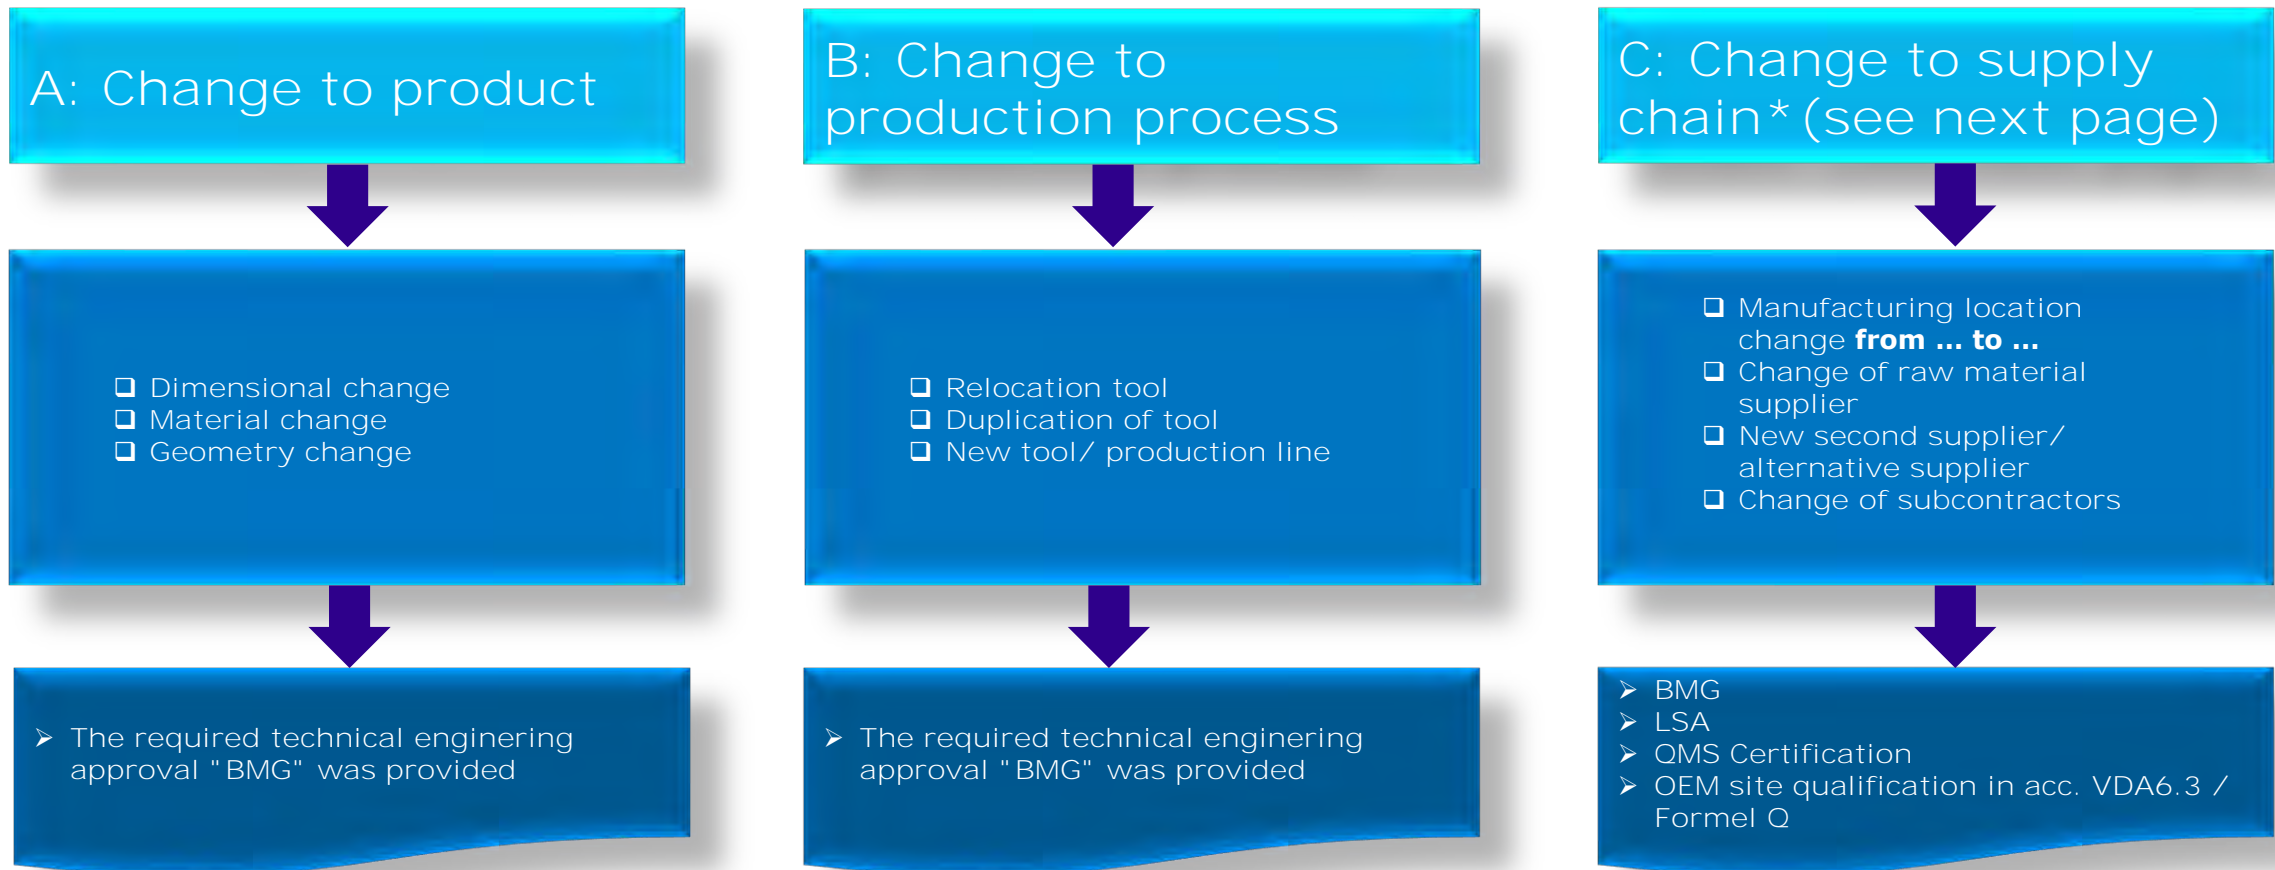

In case of technical changes send your notification 6 month before first shipment,
all other cases 3 months before first shipment

Check also our main requirements at our SEBN website: <https://www.sebn.com/supplier-area/>

Process and content

PCN type defining the requirements of the basic documentation to start the PCN process

Process and content

PCN type defining the requirements of the basic documentation to start the PCN process

*In supply chain of ZSB parts, the supplier is obliged to present a new PPA proposal regarding documentation including Master package for the ZSB parts at SEBN

Reason why we need this information in advance

We have to check our production line:

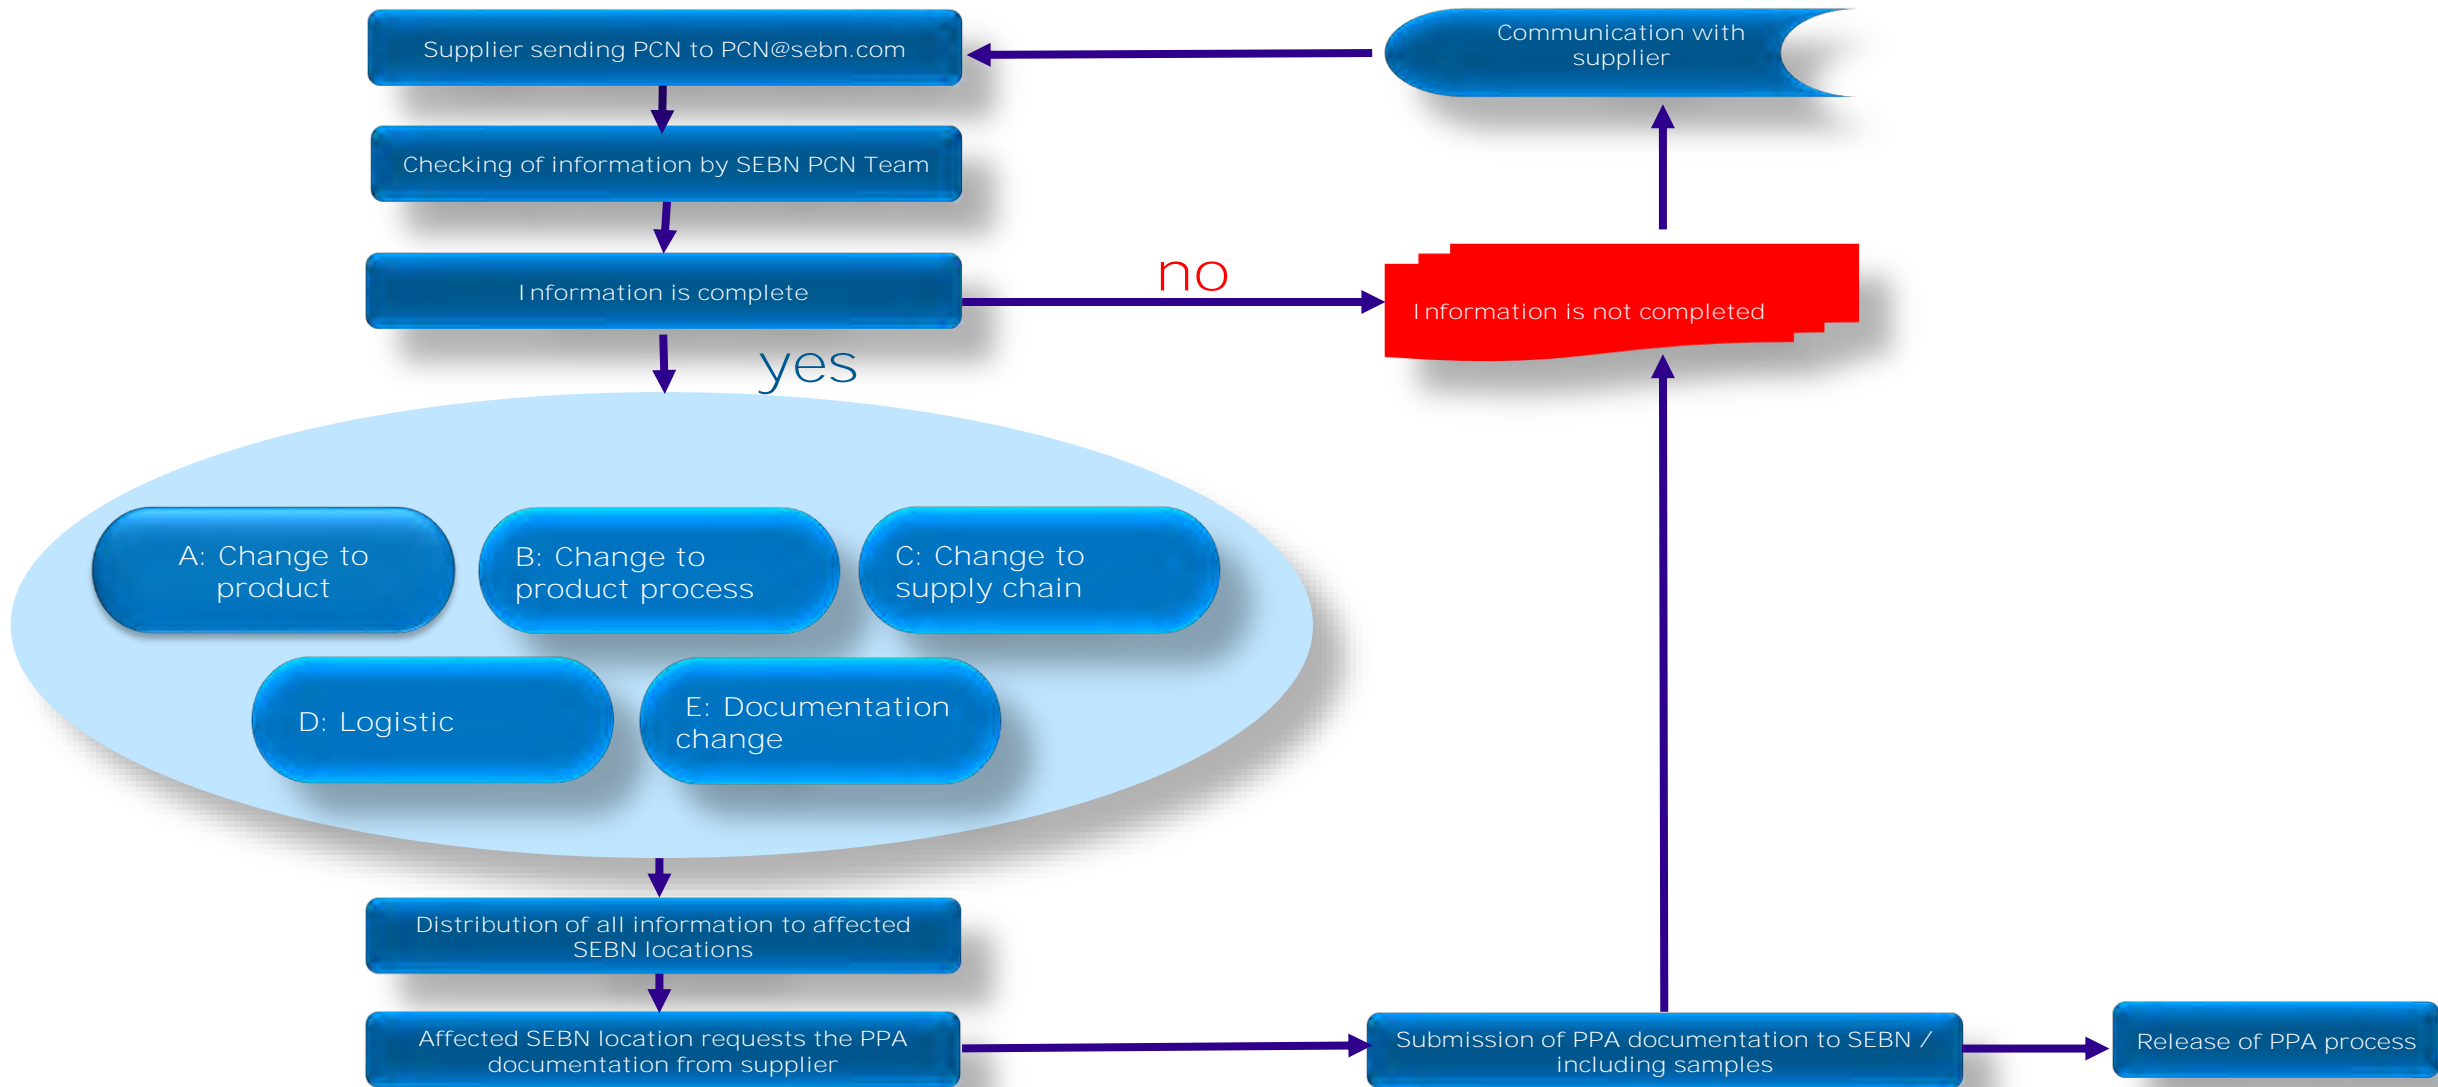

- ✓ crimping
- ✓ US welding
- ✓ connecting
- ✓ testing
- ✓ handling
- ✓ IMDS/REACH/ROHS
- ✓ In worst case we need new test modules

For example:

- > The camera system must detect the relay type and designation
- > Camera system detects new fuse type and fuse from new manufacturer
