

Environmental Policy

Sumitomo Electric Bordnetze SE

On the way to an environmentally friendly future, Sumitomo Electric Bordnetze SE will contribute its greatest possible share and, as a company, be part of the movement, towards a sustainable society.

The goal of the company and all employees is also the continuous improvement of environmentally relevant aspects of work and the establishment of environmentally friendly processes. This includes, among other things, the continuous improvement of the environmental management system and the increase of environmental performance, the increase of resource efficiency, the environmentally friendly use of water, the increased use of energy from renewable sources and the conscious and safe handling of chemical substances. In addition, the environmental impacts arising throughout the work processes will be prevented and improved as far as possible.

This includes:

All climate-relevant emissions

The resulting waste

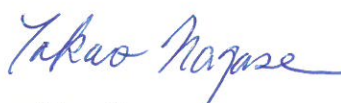

The conservation and protection of ecosystems and biodiversity

The site will comply with all legal and other binding obligations and strive to continuously improve the environmental management system and increase environmental performance.
